1776

THE FIRST 200 YEARS

A knowledge of American history is an invitation to experience the accomplishment, drama, tragedy and hope of an infant nation struggling to grow up. Sturdy, determined pioneers hacked away at the edges of a raw continent and, with blunders and achievements alike, modeled a country with a spirited nature and a united commitment to individual liberty for every one of its citizens. Americans, great and not so great, have given us a heritage to carry on and improve upon. Farmers and soldiers, industrialists and merchants, dreamers and leaders, are all there in two centuries of progress.

But the maturing isn't finished. You'll find the boundaries of growth as endless today as when our forefathers first envisioned them. You can seek out your own destiny with the wisdom and judgement which comes with re-creation of the past. Your knowledge, dreams and industry will carry on through many more centuries of living history.

"Everything that is right or reasonable pleads for separation. The blood of the slain, the weeping voice of nature cries, 'tis time to part'." — *Thomas Paine*.

CHAPTERS OF AMERICAN HISTORY

The Stamp Act of 1765 was an attempt by England to tax items that were wholly American. The colonists reacted in seething resentment which erupted into angry protestations. The first blood of the American Revolution was spilled during one such incident at Boston in 1770. Several Americans lost their lives over a snowball thrown at a British sentry.

In the fight to achieve commerce equality, the United States found itself in a naval war over shipping lanes. Fort McHenry was heroically held during a British naval bombardment, and the stars and stripes still flew after a night of hard fighting. The next morning Francis Scott Key penned the immortal words of what would become the national anthem.

Settlers had to have permanent access to the new lands, so canals and bridges were built to carry stages and wagon trains loaded with machinery destined for settlements in the West. The pioneers foresaw great wealth in the cheap acreage that was available.

Frontiersmen cleared the wilderness, built settlements and drove back the Indians. The Pony Express and the telegraph became primary means of communication.

Agriculture was the wealth of the country. American inventions of the time were often related to working the soil. The McCormick Reaper, mowing machines, textile looms and the cotton gin were instrumental in the settling of new frontiers.

In 1848, James Marshall found gold in the race of a sawmill he was building for John Sutter at Coloma, California. The lust to "get rich quick" was the force behind this biggest and gaudiest gold rush ever.

While "gold rush fever" gripped the country, states were increasingly more divided on the slavery issue. Civil war broke out in the East. This "Brothers War" was bitterly fought and, though the scars remain even today, slavery was abolished.

Cities grew at an alarming pace; often without regard to the limits of safety. The great Chicago fire of 1871 burned the bustling cattle market empire beyond recognition. But the pioneer spirit was not broken. Chicagoans began rebuilding and preparations were underway to celebrate the 100th birthday of the country.

The "Iron Horse," carrying homesteaders, greatly helped settlement of the new country. The first transcontinental railroad connected the country at Promontory Summit, Utah, on May 10, 1869.

Transportation was setting the pattern for the American way of life. The country became a mobile society with electric trolleys, automobiles, farm machinery, and bicycles, all the rage. Along with the accessibility of travel came a new era of nationalism.

A World War called upon the nation's young men to unite and fight. After the war in Europe, the nation pulled itself together and industry flourished once again. A carefree America buried war memories in the new moving pictures, telephones, light bulbs, electric generators, stock market ticker tape machines, phonographs and a wealth of inventions from the fertile minds of its young inventors. Baseball became the national sport and prohibition was law.

Black Thursday, October 24, 1929, saw the American stock market crash to the lowest level in history. Panic set in as the unemployment level skyrocketed. The country was in its worst economic crisis. Slowly, but surely, the wounds of the "crash," the "dust bowl," and poverty healed.

The steel industry geared up for the revival while rumors were whispered in the Roosevelt administration of another impending war. The nation's leaders scoffed, until December 7, 1941 Pearl Harbor!

Industrial production reached a peak during the war years. Upon their return from four years of battle, the veterans forged ahead with an eye on a "better life for everyone." Several moderate recessions in the 50's and 60's reminded cautious citizens of past decades.

Huge strides were being taken in the scientific field. Television became a part of every family's life. National events were household topics — while they happened — thanks to the new medium. Individuals and groups were seen "on the tube" as they advocated new social reform, or justice, or special causes of their own. TV gave individuals and political systems power greater than ever before. Audio-visual journalism had made its impact.

Nearly 100 years of struggling for civil liberties were realized when President Lyndon Baines Johnson signed the Civil Rights Act of 1964 into law. The Act outlawed segregation in any form.

The seventies shed light on a new trouble for the nation as it approached its 200th birthday. The world's energy sources and natural resources were being used up faster than they could be replenished. Americans once again waded into a new frontier. The "energy crisis" and "ecology" were prominent words in the language. Ways to save nature from the neglect of mankind and ways of preserving precious fuel without damaging that balance of nature were the objectives of Americans across the country.

Earth's crises spurred Americans into further pioneering. This time — outer space. American astronauts were the first on the surface of the moon and the U.S. was first to build a "sky-lab" for more scientific study.

America is still learning and growing after a mere 200-year infancy. The original determination of our forefathers was told again in the words of Neil Armstrong as he made the first step on the moon — "a small step for man, but a giant step for mankind."

THE CHANGING NATION

Ownership of land had been just a dream to most of the colonists from feudal England. With the great expanse of cheap land opening up in the West, the dream became reality.

The Louisiana Purchase of 1803 opened the first sizable frontier in the Midwest, but the nation was not ready for it yet. It took a growing market in the East, where land was getting high-priced and scarce, and development of good transportation, to really start the frontier movement.

The Gold Rush caused hordes of settlers to take various routes to the Pacific Coast and its yellow riches. The railroads brought farmers and ranchers, along with the miners, who decided to stop all along the routes and

build their homes. Railroads were instrumental in the quick civilization of the West, bringing people in numbers so large that the resentful Indians were finally pushed back into unwanted and infertile areas.

America became a haven for immigrants from every nation as freedom beckoned them to the teeming cities of the East, the plains, and the rich west coast farmlands.

Sick of the Civil War and with their own lands divided up and lost, many Southerners set out to "begin again" in the virgin territories. "Westering" soon became the national tradition as North and South moved together toward a new life. Americanism was advanced socially, by the hard-working, bare-fisted types who settled the frontiers.

NECESSITY
IS THE MOTHER OF

SUBMARINE

COTTON GIN (Model)

TELEPHONE

Without realizing it, England instilled in the colonists the individual purpose and ingenuity that necessity breeds. With trade goods cut to a minimum, determined young leaders of the time set out to find ways of surviving without support from the Mother Country.

Agricultural methods and machines and labor saving devices were designed by our forefathers. As frontiers opened, Yankee genius had to conquer natural barriers in the wild new country, so suspension bridges were invented and methods of transportation were perfected for the purpose of opening the untamed areas. Later, they sought to section off the land with the revolutionary and controversial invention — barbed wire.

Cooper's 1-horsepower **Tom Thumb** train in 1830 and later, automobiles like the first Model T, and the 4-horsepower airplane; became American modes of travel from city to city and coast to coast.

Americans knew that the fertile lands of this nation would produce unequalled harvests if machines were designed to take over for man. They knew also that trade routes were difficult to travel and manufacturing would have to be done close to home. The cotton gin, textile looms, drill presses and a reaper which could cut six times as much grain as a hand scythe were some of the tools invented.

DRILL PRESS

PHONOGRAPH

Protection for themselves and for their young country prodded inventors like Eli Whitney to perfect firearms and others to work on plans for the first submarine. Young inventors like Alexander Graham Bell and Thomas Edison (called the nation's most valuable citizen) visualized machines that would light the country and open up communication with those in the far corners of the nation. The telephone, telegraph, phonograph and the first light bulb were discovered in the late 1800's and early twentieth century. This American way of doing for oneself inspired many to become inventors in their own right. Some sought to save labor and mass-produce for profit while others envisioned not only riches, but excitement and adventure as they discovered ways to defy nature.

Throughout the past 200 years the American mind has been unleashed to take whatever paths necessary to fulfill the needs. In the last half-century, the pace of discovery has been overwhelming and inventions for the taming of the universe lie in the grasp of America while the habit of "finding a way" is ingrained in its people. The seeds of industrial America were sown by these inventors resulting in today's mechanized society.

THEY MADE THEIR MARK

Men and women who helped shape America's history

THOMAS PAINE, a bankrupt Quaker corsetmaker, sometime teacher, preacher and grocer wrote the most brilliant pamphlet of the American Revolution. His words in *Common Sense* reflected longings and aspirations that have remained part of American culture to this day.

DANIEL WEBSTER chose law as a career and went on to become well-known in the courts and in politics. He was twice Secretary of State with an eye always to the Presidency which eluded him.

DOROTHEA DIX worked her entire adult life for reform of the existing penal and mental institutions in the mid-1800's. The first state hospital in the nation at Trenton, New Jersey was a direct result of her efforts.

The creator of the Cherokee alphabet, **SEQUOYAH**, was an artist, writer and silversmith. He used a simple 1821 English primer to compose the characters. The famous redwood trees of the Pacific coast bear his name.

Chief Justice **JOHN MARSHALL** established fundamental principles of American constitutional law. He is noted for his precedential declaration of a Congressional act as unconstitutional. He served through five administrations, from 1801-1835.

Born a slave in Maryland, **FREDERICK DOUGLASS** taught himself to read and write secretly and, at 21, escaped to freedom. He was an ardent abolitionist campaigning successfully for Negro suffrage and civil rights.

"The New Colossus," a sonnet composed by **EMMA LAZARUS** in 1883 is inscribed on a bronze tablet at the base of the Statue of Liberty. She organized relief for Jews and helped fugitives from the Czar's ghettos to establish homes in America.

AMELIA JENKS BLOOMER, best known for a mode of dress she adopted during her campaign for equal rights for women. Though ridiculed until she gave up the costume, the term "bloomer" came to symbolize woman's bid for individual freedom.

ABRAHAM LINCOLN epitomized the American dream of a humble young man ascending to the highest office of the land. He was superbly skilled at analyzing complex issues and translating them into meaningful words for the public. He was devoted to the preservation of the Union.

HARRIET BEECHER STOWE wrote *Uncle Tom's Cabin* in an effort to make the whole nation realize the inhumanity of slavery. Her book resulted in one of the most popular and controversial plays on the American stage. The Civil War was kindled by this work.

HORACE GREELEY'S admonition to "Go West young man" was a rallying cry of the pioneers of America. He was founder and editor of the *New York Tribune*. He was best known for his philosophy of social reform and his unsuccessful bid for the Presidency in 1872.

JOSEPH PULITZER was the first journalist to reach a truly massive audience. His *New York World* newspaper was the symbol of "yellow journalism" with its sensationalism aimed at the common man.

ANDREW CARNEGIE was a giant in the railroad and steel industries. He believed that it was the duty of a rich man to distribute his wealth during his lifetime. To that end, he established 2800 libraries and many cultural halls throughout America.

A lifetime passion for machinery led **HENRY FORD** to Detroit where, in 1896, he completed his first motor vehicle. The Ford Motor Company manufactured the first "Model T" in 1909.

One of the most elementary symbols of the American way of life was established when **J. EDGAR HOOVER** and his Federal Bureau of Investigation "G-men" set out to clean up the country. His career spanned over 40 years.

The motion-picture industry was revolutionized in America and **DAVID WARK GRIFFITH** became known as the "Father of the film art" and "king of directors" for his part in this revolution. His camera techniques were the pioneering steps of the industry.

Serving an unprecedented four terms as President of the United States, **FRANKLIN DELANO ROOSEVELT** was a popular leader who made extensive use of fireside radio chats to explain his plans and generate enthusiasm to push them through Congress.

ROBERT FROST's poetry was clear, understated, well-metered and told the stories of rural America. He was a four-time winner of the Pulitzer Prize and has been called America's poet laureate.

A plain, homely woman with tremendous appeal to the masses, who was always in the "thick of things" describes **ELEANOR ROOSEVELT** and her lifetime of politicking beside her husband during his four terms.

THURGOOD MARSHALL is the first Negro to serve as a justice of the Supreme Court. His law career was aimed primarily at civil rights cases.

The crippling poliomyelitis was conquered by **DR. JONAS SALK** in 1953 after more than 25 years of research. Polio was reduced by 96% in less than ten years. SALK's research continues in California at the Salk Institute.

MARTIN LUTHER KING was a leader in the cause of civil rights. He had been a pastor before turning to the cause of segregation. His leadership earned him the Nobel Peace Prize in 1964. He was assassinated by James Earl Ray in 1968.

Lieutenant Colonel **JOHN GLENN** started America's travels to outer space when he became the first American to orbit the earth. He had been an aviator in World War II and a test pilot in peacetime.

GERALD R. FORD, the first President to achieve the office without an election. In 1974, through a series of scandalous events, the Nixon administration toppled and FORD reached the position through approval by Congress.

COTTON.

Imagine buying that acre of land you have spotted for \$1.25! Or, even at the higher price of \$10. Those are the prices offered to our founding fathers to encourage settlement of the wilderness areas of this nation.

A stage wasn't the most comfortable way to go, but you could get from city to city for as little as \$3 — at the amazing pace of six miles per hour.

Compare today's wages with a 12-hour day in the early 1800's. A man earned 50¢ a day. Of course his dollar bought a little more than today's. Butter in 1826 was about 5¢ lb. in the Midwest; eggs, 3¢ doz.; corn 6¢ bu., wheat, 25¢ bu.; and a cow could be bought for \$5.

With travel becoming the American tradition, you could choose train, wagon, horseback or the water. A canal ride, with bed and board included, averaged 3 or 4¢ per mile. And when you reached your destination, you could sit down to a 5, or even 10 course meal for 25¢. (Ladies 20¢, in consideration of appetite.)

Farmers in the early 1800's could own the famous McCormick Reaper for a mere \$100. But the Civil War increased prices as the machine became the first item farmers could buy on time payments for the sum of \$1,500.

A good suit of clothes then might cost \$1.95 and ladies waists (blouses) were marketed for 49¢ to \$3.50 with a whole dress pattern priced at 15¢.

Cookstoves, "quality-satisfaction guaranteed," could cost you \$29.25 at \$4 per month and a dandy heating stove could set you back as much as \$5.73 and up. The first electric refrigerator cost \$900 — which might be enough to make you faint on your 1907 fainting couch that had cost a mere \$7.85.

Your new baby travelled in the height of fashion in a wicker sleeping coach (stroller) for the sum of \$12.04. If you had \$1,500 in 1903 you could show off in one of the first automobiles.

Ah, those were the days. Some of the current prices are reminiscent of those days, but at frontier prices, which were a whole different story. Hardy pioneers had to pay \$2 a pound for sugar, too. And the same for a pound of coffee or pepper. Those items were only 15¢ per pound back in civilized St. Louis. Flour was marked up 100 times for sale to the frontiersmen and during the famous Gold Rush, that precious commodity went for \$400 a barrel.

CHESNUT STREET, (ABOVE SIXTH.)

OPEN throughout the day, and ILLUMINATED every evening.

Admittance 25 Cents.

This Museum is the oldest and largest establishment in the United States, and contains immense collections of the Animal and Mineral Kingdoms of nature, from all parts of the world. These are all beautifully arranged, so as to enable the visitor to study the objects with the greatest advantage. The collection of implements and ornaments of our aboriginal tribes is very extensive and interesting, and the Cabinet of Antiquities, and Artificial Curiosities, is not less worthy of attention. In addition to the ordinary attractions of a Museum, there is in this a very large collection of the Portraits of American Statesmen and Warriors of the Revolution, and of the most distinguished scientific men of Europe and America.

The Founder, C. W. Peale, desirous of securing the Museum permanently in this city, obtained an act of Incorporation, by which the stability of the Institution is insured. The act of Incorporation secures the use of the Museum in perpetuity to the city, and authorizes the Stockholders to appoint annually five trustees, who meet quarterly to regulate the business of the Institution. Nothing can be removed from the Institution under a penalty, and forfeiture of double the value of the thing removed; hence donations may be made with certainty on the part of the donors, that the articles placed in the Museum will always remain for the public good.

We'll remember always

... the sports, activities, clubs, teachers, and fellow students at Northern Bedford County High School. In his own way each contributed to the great times shared by all and helped to make learning a worthwhile experience. The 1976 PAWPRINTS staff has endeavored to preserve these precious memories of school life. Special thanks to Mr. Nevin Albright, school photographer; Mr. John Mitchell, yearbook representative; and Mrs. Linda Hess, yearbook advisor; for their great amount of help.

Dedication

Mr. Gerald E. Brown

We, the Yearbook Staff, would like to dedicate the 1976 PAWPRINTS to Mr. Gerald E. Brown. His first-rate guidance and hearty sense of humor will be engraved in our memories for years to come. We feel he is not only a stupendous teacher who communicates with his students on a mature level, but he is also a friend to everyone he meets.

He received a diploma from Mapletown High School and from there his determination and hard work led to a Bachelor of Arts degree at Waynesburg College majoring in history. From there he went on to receive his Master of Education at Shippensburg State

College, certified to teach history and government.

Mr. Brown began teaching at Northern Bedford in 1967. During his nine years at NBC, he has been a very busy man helping the students in different activities. He heads the Drama Club and has directed numerous plays and musicals, such as "Lil' Abner" and "Bye Bye Birdie." In addition to these activities, he still found the time to travel to India in 1972.

We are all honored to dedicate the 1976 PAWPRINTS to Mr. Brown and to thank him for his help through our high school years.

Yes, We're Pennsylvaniananans.

The 1975 football season proved to be a sensational one for Panther football players, coaches, and fans.

Grueling hours of practice paid off in the first undefeated and untied football season in the history of Northern Bedford.

The offense averaged a commendable 29.7 points per game, while the "defensive eleven" allowed just 6.8 points per game.

The team won three championships: the Mountain League Conference, the Inter-County Conference and the Mid-Penn Conference.

All-County honors went to Greg Batzel, Norman Sollenberger, Mike Johnson, Jeff Koontz, Brian Detwiler, Brent Bowser, and Barry Brown.

Inter-County Conference honors were awarded to Jeff Perrin and Mike Johnson on offense; Norman Sollenberger, Greg Batzel, and Jeff Koontz on defense. Brian Detwiler and Barry Brown received honorable mentions.

Our seniors can truly be proud of the three years they have given to Northern Bedford football amassing a phenomenal record of 26 wins, 1 loss, and 1 tie including 17 straight wins.

In their first season on the field, the girls' soccer team completed a commendable 3 win-3 loss season.

The girls lost to Chestnut Ridge by scores of 0-2, 0-2, and 1-2. The goal against Chestnut Ridge in the final game of the season marked the first time the Lion's defense had been scored upon. The team handed Tussey Mountain defeats of 6-4, 5-0, and 9-0.

Leading the team in scoring with 6 goals was sophomore Cathy Miller. Goalie Cris Foor allowed just 10 goals while teammates booted a total 21 into the opponents' net.

The Varsity Basketball team ended the regular season in a three-way tie, along with Everett and Hyndman, for second place in the Bedford County League. This earned the team a spot in the District V playoffs. However, Shanksville-Stoney Creek outpacked the Panther cagers in the opening playoff game, 63-40.

With only one returning letterman, Greg Batzel, the team still surpassed the 500 mark with a regular season 11 and 9 slate. The team scored on the average of 61.6 points per game while their opponents managed 59.3. Top scorer was Jeff Oaks with 311 points for a 14.8 average. The second leading scorer, Greg Batzel, finished the season with 216 points for a 10.3 average.

The team became increasingly better as the season progressed. After a rather shaky season before Christmas, the team came back to win 9 of 13 games after the Christmas break. The team is optimistically waiting for next year.

Head Coach Dale Batzel

"I was proud of the way this team never quit and came on strong the second half of the season. It's a pleasure to work with such outstanding individuals who are leaders in many school activities."

PIAA CLASS-AA STATE CHAMPION JAN CLARK

Coach Rodney Hoover, Jan Clark

Jan Clark, 105-pound junior, annexed his second consecutive "AA" state championship by defeating Chris Wentz of Northwestern 8-5 in the state finals at State College. Last year he defeated Wentz at 98-pounds by a score of 8-7. As a freshman, Jan was also state runner-up at 98-pounds.

Jan had an amazing tournament, scoring 48 points to his opponents' 5. All five points against him came in the finals.

Jan became the first Bedford County grappler to win two state titles. He is the second District V grappler to perform the feat.

The school wishes to congratulate Jan for his fine performances and his many honors!

Our wrestling squad climaxed their fine season by capturing both the Tri-County League and PIAA District V championships.

The team not only defeated every Tri-County League team it faced, but compiled a 13-1 record, losing only to Bedford. Northern Bedford also dominated the Tri-County All-Star team. Named to the first team were: 112--Jan Clark, 119--Jay Clark, 126--Todd Housel, 138--Brent Bowser, and 185--Norman Sollenberger. Named to the second team were Bob Guyer at 145 and Fred Cottle at 167.

In addition, the team placed second in the BEN Christmas Tournament. The twins, Jan and Jay Clark, each won first place at 112 and 119 respectively. Norman Sollenberger and Dave Pittman were runners-up.

The highlight of the season was earning the District V wrestling team title. Jan Clark, Brent Bowser, Bob Guyer, Norman Sollenberger, and Victor Hart captured individual titles at Windber. Jay Clark, Todd Ferry, and Brian Detwiler were runners-up, while Dave Pittman and Fred Cottle placed third. Todd Housel finished fourth. Coach Hoover was again named Coach-of-the-Year in District V.

The District V champions and runners-up advanced to Regional competition. Jan pinned all of his opponents at Regionals as he seized his second Regional championship. Brent and Norman also qualified for the State Tournament, where Jan went on to win his second straight state championship.

Mr. King's bicentennial baseball squad finished the season with a patriotic 7-6 record. Steve Steele led the team with a .400 average and tied Dan Riehl for the lead in home runs with two. Duane Dilling contributed one. The other leading hitters were Ronald Miller (.366), Norman Sollenberger (.364), Dan Riehl (.351), Jeff Boyd (.346), and Greg Batzel (.342).

John Beach and Greg Batzel each had two triples, while Tom Shoemaker and Ronald Miller each added one. Riehl, Miller, Steele and Darin Meck led the team in doubles with three each.

Sollenberger and Batzel led in the RBI column with nine each. Riehl and Meck each had seven.

Riehl led the squad in stolen bases and bases-on-balls with eight and ten respectively. Batzel had five steals while Todd Ferry had seven walks. Jeff Boyd proved hardest to strike-out by whiffing only once.

Ronald Miller led the team in pitching with three wins and no losses. Norman Sollenberger had a 1-2 record, Gary Taylor had a 2-4 record and Wally Douglas had a 1-0 record. Dan Riehl led the team in defense with many fine plays at shortstop.

Coach King: "I thoroughly enjoyed working with the fine group of athletes we had on the baseball team this past spring. Although we fielded a relatively young team, they were still highly competitive and a tribute to both school and community."

With a winning record of 6 wins and 4 losses, the Varsity Girls' Volleyball squad placed third in the County. The girls suffered defeats at the hands of Everett and Bedford but defeated Hyndman, Ridge, and Tussey each twice.

The Varsity squad was lead by the able spiking of Carol Huntsman and Nanette Gable and the quickness of Mel Dodson and Lynnea Zimmerman. The steady serving ability of Judy Decker and Cris Foor also helped to bring scoring points to the Panther team.

Come down, please come down!

Just you wait!

It's a smash hit!

The Girls' J. V. Volleyball team posted a respectable 5-5 record defeating Everett and Tussey twice and Bedford once during the course of the season.

The games were always very close. The girls usually played three games and pressed the opposing team down to close losses. Consistent serves by Janet Fluke and Karen Steele led the squad to points while Chris Boyd and Jada Kagarise were able to return hard hit serves with their effective bump passes.

Diligent practice by the girls was important to perfecting their power volleyball skills. This able J. V. team gives prediction of a good varsity team next year.

The improved Panther track team posted a fine 9-5 record against tough area teams. School records were broken by Jeff Koontz in the long jump and 440; Brian Pressel in the 330 yard intermediate hurdles; and the mile relay record was broken by the team of Jeff Koontz, Brian Detwiler, Kevin Sheeder, and Jeff Foor. Two team members--Jeff Koontz in the long jump and Ken Batzel in the pole vault--participated in the state track meet at Shippensburg State College. The '77 track team shows great promise for next year with 16 returning lettermen.

In just their second season of competition, the panther girls' track squad topped off their fine undefeated season by winning the Bedford County crown.

After compiling a 9-0 regular season record, the girls took the District V title.

Junior Melanie Dodson set a district record in the 220 with a time of 27.3. Senior Nanette Gable set a district record in the broad jump with a distance of 15'9". She improved on that record with a 16'2"

jump at states. The 440 relay team of Melanie, Deb Teeters, Alexia Hart, and Nanette set a district record by rounding the track in 53.3 seconds.

Of the seven panthers who went to state competition, Melanie--in the 80 yard hurdles--was the only one to make it as far as the semi-finals.

According to Kathy Clark, the youth and depth of the team promise good seasons for the next several years.

New York

New York City, what an exciting place to visit! Forty-six members of the Class of '76 and their chaperones Mr. & Mrs. David Smith had an opportunity to do many unusual things, such as standing on the Empire State Building like King Kong, riding a ferry boat to the famous Statue of Liberty, or riding the subway to 50th Street to see the Broadway play, "Godspell." There were so many things to see and do in such a short time. Arriving home safely after it was all over, we can look back to the memories we have to cherish for a long long time to come.

"STAIRWAY TO HEAVEN"

Queen Kim Imler & King Greg Batzel

The annual Northern Bedford Junior-Senior Prom was held on May 14, 1976, at 8 o'clock at the Bedford Elks Club. The theme was "Stairway to Heaven" with the Kandy Apple as the featured band. Brenda Steele and Nevin Sollenberger, 1975's King and Queen, gave up the reign to this year's King and Queen, Kim Imler and Greg Batzel.

at the high school from 1-5 a.m. Featured movies were "Pre-mature Burial" and "My Little Chick-a-dee." Other activities included ping-pong, volleyball and bingo. Sharon Elbin received the door prize--a bean bag chair. At 4:30 a.m. the parents served breakfast.

"Say cheese."

Nanette Gable, Todd Ferry, Debbie Snyder, Fred Cottle, Queen Kim Imler & King Greg Batzel, Lynnea Zimmerman, Norman Sollenberger, Junior couple: Leslie Bowser & Jay Clark. 1975 King & Queen: Brenda Steele & Nevin Sollenberger.

In Memory Of

A BETTER LIFE

The world is no longer her home.
She's gone away to another place,
To begin anew without problems to face.
She's so much happier being there,
Although to us it doesn't seem fair.
For she was so young and had much to give,
Then was swept away without a chance to live.
But we must accept and cease to sorrow,
And with tears of joy, meet tomorrow.
For she now has love, and hope complete.
She's in God's heaven, 'tis ever so sweet.

SUPERINTENDENT

Dr. B.F. Van Horn

The year 1976 holds extra significance for you who are graduating. As the benefactors of the thoughts and efforts of our nation's past, you become the initiators and implementers of the events ahead as you graduate into its next century. To carry the torch is a responsibility and an opportunity, but above all a challenge.

The Furry Mill as it appeared in the 1930's before the addition of more space and five elevators. The

mill produced ground grain for livestock, corn meal and flour. The flour was marketed locally under

the White Wonder label. The mill was built in 1856.

Through The Years

Captain John Paul Jones (1747-1792). From August 8, 1776, when he received a captain's commission, John Paul Jones led American seamen to some of the most glorious victories in our history. In command of the American sloop RANGER during the Revolutionary War, Jones defeated the British sloop DRAKE off the coast of Scotland. Still later on September 23, 1779, Jones was to command the American ship BONHOMME RICHARD in one of the most celebrated battles of Naval history. In British waters, BONHOMME RICHARD fought a bitter, close battle with the larger, better armed British SERAPIS. When the SERAPIS hailed to ask the Americans to surrender, John Paul Jones bellowed back his immortal words, "I have not yet begun to fight." For some 3-1/2 hours the ships pounded each other until the British captain struck his colors. Jones had won an historic victory. Often called the Father of the American Navy, John Paul Jones had established a tradition of heroism which has never been forgotten.
